

Tillerson suspected of corresponding about climate change using the email alias “Wayne Tracker”

Overview of Rex Tillerson and record of email trail while at ExxonMobil

Timeline of events

Key players

Eric Schneiderman
Attorney General, New York

Rex Tillerson
Secretary of State

Analysis

- Schneiderman and his team discovered the email alias after their request for all documents relating to climate change
- Around 60 documents have been discovered with the Wayne Tracker email address copied, but no documents from the email account have been collected
- Topics discussed in emails from the account have included climate change and other important issues
