

# On average, women are paid 80 cents for every dollar paid to men; however, Latinas make almost half that

For every dollar earned by white, non-Hispanic men Latinas earn...

- Background**
- New Mexico and California have the largest shares of Latinas working full time, year-round
  - In California and New Jersey, Latinas face the largest wage gaps; Latinas in New Jersey are also paid 43 cents for every dollar made by a non-Hispanic white man
  - 40% of Latina mothers bring in 40% or more of their household's income
